

**Top of the Line Expertise for
Science & Technology
Innovation**

About Delphi™

As an innovator, startup founder, investor, or an SME promoter, getting access to the highest quality expertise to answer your Scientific & Technological queries can be truly daunting. Not anymore.

Delphi is there to assist. For the first time ever, YNOS through its Delphi Platform makes the expertise of top notch faculty members and scientists easily accessible to startups, venture investors, entrepreneurs, and young innovators.

How can Delphi™ help you?

The Delphi platform can be used to consult the subject matter specialists for

Strengthening the Science & Technology behind your innovation

Validating the innovation behind the product, process or service offering

Identifying and developing the Scientific & Technological features of the product or service offering

Getting an opinion on the Scientific & Technological strengths of prospective investments

What makes Delphi™ outstanding?

The experts on Delphi are the best of the best

Top experts from different domain specialties in a single platform

Over **1000+** domain specializations across India

Intelligent search feature helps quickly identify the best expert

Constantly updated with the growing pool of experts

Facilitation by YNOS Support ensures productive meetings

The Delphi™ advantage

01

Unbeatable value proposition

02

Eliminates the need for searching different institutes for available experts

03

Substantially **strengthens** and validates the scientific & innovation component that forms the bedrock of your venture

04

Understand the Scientific & Technological risks of the innovation or venture

05

Removes the challenges of navigating for **expertise** in large institutions

06

End to end process facilitation by YNOS ensures a smooth and **hassle free** experience

How does it work?

STEP 01

Signup

Go to **ynos.in** and login to access Delphi. If you don't have an account, create one. Its free and can be created in few seconds by visiting our "Signup" page

STEP 02

Visit Delphi™

Access Delphi through the offerings page at **ynos.in**. Find out more about the features and experts available

STEP 03

Select expert

From the list of available experts based on your search or filter criterion identify the expert of your choice. Once you have finalized your choice, you can proceed to booking an appointment. If you or your organization have not subscribed to Delphi, you will be redirected to a payment gateway. Once you complete the payment process, YNOS will facilitate the meeting

STEP 04

Before consultation

YNOS Support will help you to get the best by preparing you for the expert meeting. A guideline document explaining the do's and don'ts would help to get the best from the interaction. You would be requested to provide a short background for the meeting, which would be shared with the expert. This would help the expert to be prepared for the meeting

STEP 05

The interaction

YNOS Support will co-ordinate with you and the expert to fix the meeting at a mutually convenient date and time. We would target the first interaction within two weeks of selecting

STEP 06

After consultation

YNOS Support will contact you to get your feedback on your experience with the consultation. Your constructive feedback will help us to continuously improve our services

STEP 07

Follow-up meeting

An optional follow-up meeting could be arranged if necessary within 30 days of the first interaction

Who are the available experts?

The expert panel in Delphi is drawn from top institutes of the country such as

- Birla Institute of Technology and Science, Pilani
 - Central Food Technological Research Institute, Mysore
 - Indian Institute of Science Education and Research, Pune

- and many more

About YNOS

YNOS Venture Engine, has been founded with the objective of transforming the startup and innovation ecosystem in India. The YNOS platform leverages technology, advanced data sciences techniques and marker analytics to provide customized insights and recommendations to startup founders, venture investors, and prospective as well as existing entrepreneurs. The offerings of YNOS are based on the insights obtained from a decade of research on the Indian venture and startup industry. The mission of YNOS is to enhance the success of startups and early stage ventures. YNOS Venture Engine is incubated by the IIT Madras Incubation Cell.
