

The **One-stop shop** for all IP

PATENTS | DESIGNS | TRADEMARK

About IP Engine™

Innovation derived from IPs have more sustaining power in the competitive market. IP Engine™ is a cutting edge solution from YNOS to leverage the abundant opportunities in Intellectual Property available in India. For the first time ever, IP Engine™ presents the inventory of IPs owned by top institutions and individual inventors across the spectrum. IP Engine™ is the place to be in, irrespective of whether you are an innovator having an IP or an entrepreneur or business looking to license an IP.

How can IP Engine™ help you?

For Entrepreneurs and Businesses

Largest source of patents and designs, and other forms of IP

The intelligent semantic search feature helps to identify the relevant IP even if specific details of the IP are not known

A one-stop shop for all IP. No need to approach a number of individual institutions and inventors to identify or acquire your IP portfolio. Helps to quickly identify related IP across institutions in a jiffy

Number of IPs on the platform growing by the day

Check if any products or offerings are likely to encroach upon any existing IP thereby potentially saving millions in litigation and liabilities

YNOS would facilitate the acquisition of the IP from the owner or inventor either by outright buying, or licensing, thereby simplifying what can be a long and cumbersome process

For IP Owners and Inventors

Helps to announce your IP to the world.
Shows your IP in the radar of those entrepreneurs and businesses looking to license IPs

A simple and easy registration process of your IP at IP Engine™

Make your IP visible to the targeted audience at a fraction of what it would otherwise cost

The IP needs to be used for the benefit of greater good and not gathering dust in the shelves of the inventor. IP Engine™ supports in finding the appropriate user for your IP

You will get an alert when your IP has been reviewed or bookmarked by a prospective user or licensee

How does it work?

Searching the IP - For Entrepreneurs and Businesses

STEP 01

Visit IP Engine

Go to the offerings section of **ynos.in** and click on IP Engine.™ You will find a description of the offering. Click on "Search IP" to see the list of available IPs in the platform

STEP 02

Choosing the IP

You can browse through the list of all IPs available in the platform.

You can also screen by using the different filters available or using our Intelligent Search feature. You can also shortlist your IPs by bookmarking them for detailed review later

STEP 03

Getting the IP

After finalizing your choice, click "Get this" to send your interest on the IP to the owner or inventor. You should have been

logged in at **ynos.in** to complete this stage. If you don't have an account, create one. Its free and can be created in a few seconds by visiting our "Signup" page

STEP 04

Acquiring the IP

YNOS Support will facilitate your interaction with the inventor or owner for smooth acquisition or licensing of the IP

Registering the IP - For IP Owners and Inventors

STEP 01

Visit IP Engine
